Sub: Adjustment of Futures and Options contracts in the security Canara Bank (CANBK)

In pursuance of Byelaws of NSCCL pertaining to Clearing and Settlement of deals, SEBI circular reference SMDRP/DC/CIR-8/01 dated June 21, 2001, Circular no. 1941/2016 (Download no. NSE/CMPT/32219) dated April 15, 2016 and Circular no. 06/2017 (Download no. NSE/FAOP/34151) dated February 09, 2017 members are hereby informed the procedure for adjustment of Futures and Options contracts in the underlying security Canara Bank (CANBK), on account of Rights Issue.

The methodology for computation of 'adjustment factor' for the corporate action shall be as given by Circular no. 06/2017 (Download no. NSE/FAOP/34151) dated February 09, 2017. The following action would be taken by NSCCL in this regard.

1 Action by the Clearing Corporation in respect of Futures Contracts:

All open positions in Futures contracts with the underlying security as CANBK existing after end of day on February 16, 2017 will be adjusted as under:

Positions: The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 06/2017 (Download no. NSE/FAOP/34151) dated February 09, 2017.

Futures Price: The adjusted futures price would be based on the settlement price of the relevant futures contracts on February 16, 2017. Adjusted futures price shall be settlement price of relevant futures contracts on February 16, 2017 multiplied by 'adjustment factor'.

Adjusted value: In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as CANBK would be marked-to-market on February 16, 2017 based on the daily settlement price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From February 16, 2017, daily mark to market settlement of futures contracts with the underlying security as CANBK would continue as per normal procedures.

2 Action by Clearing Corporation in respect of Options Contracts:

All open positions in Options contracts with the underlying security as CANBK, as existing on February 16, 2017 shall be adjusted as under:

The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 06/2017 (Download no. NSE/FAOP/34151) dated February 16, 2017.

3. Members are advised to note the following in respect of Futures and Options contracts on underlying security CANBK.

Position details of Futures and Options contracts with the underlying security as CANBK would be provided in PS_03 / 04 files for trade date February 16, 2017, would indicate final positions in the relevant contracts (without adjustment) on February 16, 2017.

The following two additional files will be provided, at the end of the day on February 16, 2017:

CANBK _<Member Code>_EXISTING_POSITIONS.CSV

CANBK _<Member Code>_ADJUSTED_POSITIONS.CSV

The details of these files are provided as Annexure I.
